<p>A calculator has been developed as a tool to help potential applicants to estimate the amount of their wage subsidy.</p>	
<p>GST/HST Deferral</p> <p>Lead: Finance Canada</p> <p>Description: Allow businesses, including self-employed individuals, to defer all Goods and Services Tax/Harmonized Sales Tax (GST/HST) payments until June, as well as customs duties owed for imports.</p>	<p>Most supplies of agricultural and fishing products are zero-rated (i.e. subject to GST/HST at 0%). Incorporated agriculture businesses that sell taxable agricultural products such as cut flowers, foliage, bedding plants, sod, living trees could be eligible for this GST/HST deferral.</p>
<p>Working While on EI Claim</p> <p>Lead: ESDC</p> <p>Description: Under the existing Employment Insurance rules, the Working While on Claim provision allows a worker to keep receiving part of their EI benefits and all earnings from a new job.</p> <p>A person earning money while receiving EI benefits can keep 50 cents of their EI benefits for every dollar they earn, up to 90 percent of their previous weekly earnings (roughly four and a half days of work). Above this cap, their EI benefits are deducted dollar-for-dollar.</p>	<p>This could be an incentive for those who are laid off from their jobs to continue to receive EI benefits and take on part time work in the agriculture and agri-food sector.</p> <p>Example: Alyssa lives in Ontario and lost her job as a data entry clerk where she earned \$1000 weekly. Her weekly EI benefit rate is \$550 (55% of \$1000). To help make ends meet, she decides to take a part time job as a labourer in a local greenhouse growing vegetables. A labourer at an Ontario greenhouse in 2020 earns \$14.18 per hour. Working part time, at four days a week for 8 hours a day, or 32 hours a week, Alyssa earns \$453.76 (\$14.18 x 32 hours).</p> <p>As a result, her \$550 in EI benefits are reduced by \$226.88 or 50 cents for every dollar she earns at the greenhouse ($\\$453.76 \div 2 = \\226.88). This brings her total EI benefit to \$323.12 ($\\$550 - \\$226.88 = \\323.12). In the end, Alyssa takes home \$323.12 per week in EI benefits plus her part time wages of \$453.76, for a total of \$776.88.</p>
